Summary

I am an experienced and passionate Front-End developer. My experience in developing my own business has taught me the importance of communication, discipline, and teamwork for success.

I have a strong foundation in HTML, CSS, JS, and React, and I continuously strive to improve my knowledge and skills in these areas. I have completed programming courses that have provided me with hands-on experience in developing responsive websites and web applications using modern frameworks and tools.

I am enthusiastic about taking on new challenges and leveraging my skills to create high-quality web applications. I am eager to grow and collaborate with experienced professionals. I am currently seeking opportunities that will allow me to further develop my skills and contribute to impactful projects in the web development industry.

Project experience

Learn-Lingo, Link -[Next.js, Typescript, styled using Tailwind CSS]
App offers a unique and interactive platform to connect with language tutors from around the globe. It's designed to make language learning accessible, flexible, and personalized. Whether you're a beginner or advanced learner, our app provides a variety of teachers to choose from based on language, expertise level, and price.

Your Pet, Link-[React,Redux Toolkit, Styled Components, Axios, Node.js]
An application that allows users to find pets that are available for adoption aswell as offers the option to buy or sell animals.

Bookshelfv, Link - [HTML, CSS, JS, Parcel, Axios].
A website for the bookshop with an adaptive design. The website is implemented using Swagger API, Firebase Authentication, and Firebase Realtime Database.

Money Guard, Link -[React, Redux Toolkit, Axios, Styled Components].
An application designed to help users keep track of their financial transactions. It allows people to store information about their income and expenses. Users can also monitor their expenses over a certain period of time.
